SPIN RATE with a hand-held radar gun!

*Another game changer
from Stalker Sport*

stalker sport

Unrivaled Radar Technology

Spin Rate and Velocity Instantly

Introducing the new Stalker Pro IIs.

Stalker engineers have delivered what the others can't - instantaneous Spin Rate measurement from your hand-held sport radar.

One of the most important pitch analytics, Spin Rate, is now provided along with Peak and Across-the-Plate velocity, in a single window.

No delay, no estimation, simple measurements.

Consistent Accuracy and Range

As the unrivaled leader in sport radar, Stalker Sport is the gold standard for consistent accuracy, superior range, and now Spin Rate. The performance and durability of the Stalker Pro IIs comes through in all conditions, pitch after pitch, game after game.

2 1/2 digit and 3 1/2 digit LED Speed Signs shown with wireless module. Part #200-1328-00
